

Additional Booth Lighting & Electric

Order Deadline: **12/21/2012**

- NOTE: For your safety, please remember that any adjustments to booth lights must be made by the Port Electric labor and cannot be done by an exhibitor. Please do not try to adjust or alter the lights in any way by yourself. If you need help, please go to the Port Electric Service Desk. Additionally, many exhibitors cover the front of their booths with drapes. Please be sure to install that drape to hang under the lights and not on top or over the lights as this will be dangerous. Orders will not be processed unless a credit card authorization, check or wire transfer accompanies your order.

ADDITIONAL LIGHTS Exhibitors may add up to 4 additional lights to each track. Use the diagram on page 53 to indicate placement of power drops and/or lights. Each light is equivalent to 150 watts of lighting. The prices include the electric power and labor.

ELECTRIC POWER To plug in a steamer, display case, lamp, or if you are bringing your own lights, you will need to order electric power. The power listed below comes with one outlet. NOTE: If bringing your own lights you must order labor at \$95/hour to install and dismantle the lights. If you are ordering power for a booth structure containing pre-installed lights (lights not provided by Port Electric), you must notify Port Electric by the deadline for approval. Once approved, exhibitor may incur additional fees for pre-installed lights on structure along with electrical labor. I.e. hanging truss with pre-installed lights, re-installing unstable lights, etc.
